

## Recommended Summary Plan for Emergency Care & Treatment (ReSPECT) Process

“ReSPECT is a process that creates personalised recommendations for a person’s clinical care in a future emergency in which they are unable to make or express choices. It provides health and care professionals responding to that emergency with a summary of recommendations to help them to make immediate decisions about that person’s care and treatment.”

Clinical Data Assistant role:

- 1) Upload to 2) Add CAD Marker 3) Contact original requester and advise of outcome 4) 12 month review due date flagged on IBIS and validated. 5) High level report as standing agenda item at relevant governance group(s).
